USER CONFERENCE 2008

**EVOLVING PRODUCT FOR
YOUR EVOLVING PRACTICE.**

**ChartWare
User Conference 2008**

**April 29 - May 3, 2008
Santa Rosa, CA**

April 29 - May 3, 2008

Mark your calendar to join us at the ChartWare User Conference 2008 — our 13th annual user meeting will surely be the best yet! As our state-of-the-art product evolves so does its impact on your evolving medical practice. This year's event will guide you to greater levels of proficiency with ChartWare and greater results.

ChartWare's EMR solution is specifically designed with better patient care in mind — better resource management, better workflow, better quality of care. And our user conference is specifically designed to enable you to get a return on your investment that goes well beyond cost-savings. During this year's conference in California's beautiful wine country, you can expect to:

- Learn better ways to leverage your ChartWare system
- Network with your peers and share best practices
- Introduce your colleagues to ChartWare's benefits
- Provide input to the future direction of ChartWare
- Meet with the ChartWare team

The ChartWare User Conference 2008 is designed to meet the needs of all of the individuals within your organization who touch the ChartWare solution — doctors, nurses, PA's, NP's, medical assistants, administrative staff and practice managers. Back by popular demand is the "ChartWare Boot Camp" for beginning and early intermediate users (April 29 - May 1) followed by an exciting social event the evening of May 1, and our main event May 2 - 3.

Please watch for future registration and conference details. In the meantime, mark your calendar so you'll be sure not to miss it — and while you're at it consider an extended stay in the beautiful Sonoma wine country or San Francisco just a short distance away.
